

**COMPLIANCE WITH SECTION 61.38 OF THE COMMISSION'S RULES**

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for Verizon Wireless, who has specifically requested that standard access services be delivered via a diverse entrance on an Alternate Serving Wire Center (ASWC) facility. This will provide service via a new facility to 1015 Route 9 in Bayville, NJ from an ASWC, Whiting Central Office.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a diverse entrance for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 3, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

- Nonrecurring Costs/Case Preparation*	\$ 804.00
- Nonrecurring Installation*	\$ 27,069.00
- Monthly Recurring Rate*	\$ N/A
- Total costs/revenues for first 12 months*	\$ 27,873.00

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Voicestream, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # 6179A at 219 Roosevelt Avenue in Edgewater Park, NJ. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 3, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Sprint PCS, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # 183A at 32796 Roy West Road in Delmar, MD. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**COMPLIANCE WITH SECTION 61.38 OF THE COMMISSION'S RULES**

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Sprint PCS, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # 834 at 700 Old Line Road in Goldsboro, MD. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

- Nonrecurring Costs/Case Preparation*	\$ 308.00
- Nonrecurring Installation*	\$ 5,988.25
- Monthly Recurring Rate*	\$ N/A
- Total costs/revenues for first 12 months*	\$ 6,296.25

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Sprint PCS, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # 700A at 19112 Croom Road in Brandywine, MD. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for Nextel Communications, who has specifically requested that standard access services be delivered via a diverse entrance from a secondary wire center. This will provide service via a new facility to 11900 Bournefield Way in Silver Spring, MD.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a diverse entrance for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

- Nonrecurring Costs/Case Preparation*	\$ 574.00

**COMPLIANCE WITH SECTION 61.38 OF THE COMMISSION'S RULES**

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for Omnipoint/Voicestream, who has specifically requested that standard access services be delivered via a diverse path on IntelliLight Entrance Facilities. This will provide service via a new facility to 325 Granby Street in Norfolk, VA.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a diverse path for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

- Nonrecurring Costs/Case Preparation*	\$ 574.00
- Nonrecurring Installation*	\$ 24,063.00
- Monthly Recurring Rate*	\$ N/A
- Total costs/revenues for first 12 months*	\$ 24,637.00

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for Verizon Wireless, who has specifically requested that standard access services be delivered via a diverse entrance on an Alternate Serving Wire Center service. This will provide service via a new facility to 5228 Valley Pointe Road in Roanoke, VA with connectivity to Luck and Barkley wire centers.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a diverse entrance for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for GTE, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # Hardy at 1234 Chestnut Mountain Drive in Vinton, VA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Devon Mobile, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # LYN 009 at 240A Poston Street in Lynchburg, VA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for GTE, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # Chesapeake at 2221 Elizabeth Harbor Drive in Chesapeake, VA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

- Nonrecurring Costs/Case Preparation*	\$ 308.00
- Nonrecurring Installation*	\$ 18,070.50
- Monthly Recurring Rate*	\$ N/A
- Total costs/revenues for first 12 months*	\$ 18,378.50

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Ntelos, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # 880Masonic at 950 Masonic Lane in Richmond, VA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**COMPLIANCE WITH SECTION 61.38 OF THE COMMISSION'S RULES**

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Ntelos, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # ST410 at 790 Frog Pond Road in Staunton, VA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 6, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

- Nonrecurring Costs/Case Preparation*	\$ 308.00
- Nonrecurring Installation*	\$ 10,308.00
- Monthly Recurring Rate*	\$ N/A
- Total costs/revenues for first 12 months*	\$ 10,616.00

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Qwest, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # 405 at 198 Charleston Road in Charleston, PA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**COMPLIANCE WITH SECTION 61.38 OF THE COMMISSION'S RULES**

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Devon Mobile, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # NEW 008 at 1041 Center Church Road in New Castle, PA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

- Nonrecurring Costs/Case Preparation*	\$ 308.00
- Nonrecurring Installation*	\$ 7,664.25
- Monthly Recurring Rate*	\$ N/A
- Total costs/revenues for first 12 months*	\$ 7,972.25

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Cricket Communications, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # PIT-071 at 208 McMichael Road in Collier, PA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for AT&T Wireless, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # P239 at 8 Hill Street in Sewickly, PA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Adelphia, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # CL33HO400 at 2199 E. State Street in Hermitage, PA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

Service Description:

Verizon is providing Special Construction facilities for Horizon Communications, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # BU44HO332 at 751 Grunderville Road in Pleasant, PA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

A study containing a projection of costs/revenues for a representative 12-month period, as required by Sections 61.38(ii) and (iii) is shown following:

- Nonrecurring Costs/Case Preparation*	\$ 308.00
- Nonrecurring Installation*	\$ 35,058.00
- Monthly Recurring Rate*	\$ N/A
- Total costs/revenues for first 12 months*	\$ 35,366.00

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for Verizon Wireless, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # PHI-WASH at 371 Stony Brook Road in Newtown, PA. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for Arbos Communications, who has specifically requested that standard access services be delivered via a diverse entrance fiber across the customer parking lot via a customer-provided structure. This will provide service via a new facility from the customer property line at 400 Corporation Drive in Alquippa, PA to their building; there will be commonality from the customer premise to the Alquippa central office, the serving wire center.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a diverse entrance fiber for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for Qwest Communications, who has specifically requested that standard access services be delivered via an IntelliLight Broadband Transport service with 1-hour Special Access Service Guarantee. This will provide service via a new facility with additional conduit requirements into 1800 Concord Pike in Wilmington, DE.

NOTE: This case was originally filed under Transmittal No. 103 on October 4, 2001. The investments were revised due to an additional conduit requirement initiated by the customer.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via an IntelliLight Broadband Transport service for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 7, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for NorthCoast Communications, who has specifically requested that standard access services be delivered via a diverse entrance facility. This will provide service via a new diverse facility to 125 Shawmut Road, in Canton, MA.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a diverse entrance facility for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 13, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for Paxson/WWDP TV-46, who has specifically requested that standard access be delivered to provide special access service via a new facility to 37 Orchard Avenue, in Nashua, NH.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a new facility for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 13, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for AT&T Wireless, who has specifically requested that standard access services be delivered via a diverse entrance on either IntelliLight Dedicated SONET Ring or Alternate Serving Wire Center facility from a secondary wire center. This will provide service via a new facility to 198 Armstrong Road in Garden City, NY.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a diverse entrance on either IntelliLight Dedicated SONET Ring or Alternate Serving Wire Center facility for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 13, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction of facilities for Dominion Communications who has specifically requested that standard access services be delivered via a diverse fiber path on IntelliLight Entrance Facilities. This will provide service via a new facility to 109 S. Warren Street in Syracuse, NY from James Street central office, a secondary wire center.

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered via a diverse fiber path for the requested service. This filing is being made in compliance with the regulations contained in Verizon's Tariff F.C.C. No. 13, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.

**(a) SCOPE**

Verizon has been found to be a dominant carrier. Therefore, Section 61.38 of the Commission's Rules apply.

**(b) EXPLANATION AND DATA SUPPORTING EITHER CHANGES OR NEW TARIFF OFFERINGS**

This is a service to be filed in the Special Construction Tariffs. A detailed explanation follows.

Service Description:

Verizon is providing Special Construction facilities for CTSI, who has specifically requested that standard access services be delivered to a non-standard premise (e.g. power tower, billboards, etc.). This arrangement will provide special access service via a new facility to site # 434A at 5-11 Niagra Road in Pleasant Valley, NY. In order to provide the requested service, Verizon will exceed the conditions of the Non Standard Premises Connection charge (exceeding 3,000 feet of cable and/or \$1,000 of contracting services).

Reason for Filing:

Verizon is making this filing pursuant to the Communications Act of 1934, as amended, in order to support the customer's request for tariffed services delivered to a non-standard premise. This filing is being made in compliance with the regulations within Verizon's Tariff F.C.C. No. 13, Special Construction.

Basis of Ratemaking:

The customer has agreed to pay the cost of the facilities to be constructed by way of a nonrecurring installation charge and a nonrecurring case preparation charge.

The case preparation nonrecurring charge includes the expenses incurred to configure, engineer, and cost support this service and was developed by multiplying the estimated staff hours required by loaded hourly labor rates. Also included within the case preparation nonrecurring charge is an increment to cover tariff preparation and filing fee expenses by Verizon. Verizon does not mark up case preparation nonrecurring charges.

The nonrecurring installation charge is designed to recover the incremental cost of the additional investment required to provide this Special Construction. The cost was determined by estimating the incremental investment and placing costs associated with construction of the transport path. Verizon does not mark up Special Construction costs.

This is a special construction tariff offering. Therefore, Section 61.38(i) of the Commission's Rules does not apply.
